Call us to learn how to save Transportation costs.

PRIMARY LEVEL

Big ideas: SCIENCE

Plants and animals have observable features

- ✓ watch HydroGreen grow from seed to feed in just 6 days
- ✓ visit the cows in the barn

Daily and seasonal changes affect all living things

- ✓ visit the hens and learn about how they are cared for

Basic needs of plants and animals

- ✓ see it firsthand on our farm with our various crops and animals

Energy can be transformed

- ✓ Look at what our anaerobic digester can do

Big Ideas: SOCIAL STUDIES

Our communities are diverse and made of individuals who have a lot in common. Communities include many different roles, requiring many different skills. Rights, roles, and responsibilities shape our identity and help us build healthy relationships. Local actions have global consequences, and global actions have local consequences.

MIDDLE LEVEL

- ✓ New experiences, both within and outside of school, expand our career skill set and options.
- ✓ Increasingly complex societies required new systems of laws and government.
- ✓ Economic specialization and trade networks can lead to conflict and co-operation between societies.
- ✓ Human and environmental factors shape changes in population and living standards.
- ✓ Changing ideas about the world created tension between people wanting to adopt new ideas, and those wanting to preserve established traditions.

A visit to EcoDairy will demonstrate that it takes more than just a farmer to ensure the farm runs smoothly. Discover all the people behind the scenes that make things happen on the farm; the farmer, the vet, the feed nutritionists, the crop experts, water testers, truck drivers, milk collectors, sheep shearers, hoof trimmers, equipment experts, etc.
